Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Adler et al (US Patent No. 6,425,671 B1).

Regarding claims 1-5, 8-13, 16 and 17, Adler et al discloses a deformable mirror comprising a reflecting surface (Fig. 2) disposed on a diaphragm (2), a diaphragm carrier that supports the diaphragm (4), wherein the diaphragm carrier defines non-circular, pressurizable rear surface of the diaphragm (Fig. 4), wherein the diaphragm carrier comprises a lateral recess substantially parallel to the reflecting surface and adjacent to the rear surface of the diaphragm (see Fig. 2), further comprising an actuator (9) and wherein the diaphragm carrier comprises a pipe socket with the circular outer cross-section (see Fig. 4). However, Adler et al does not disclose the rear surface that is approximately rectangular surface,

Art Unit: 2872

approximately oval surface or approximately elliptical surface. It would have been obvious to one of ordinary skill in the art to change the shape of the rear surface since such a modification would have involved a mere change in the shape of a component. A change in shape is generally recognized as being within the level of ordinary skill in the art. In re Daily, 357 F. 2d 669, 149 USPQ 47 (CCPA 1966).

3. Claims 6, 7, 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Adler et al in view of Giesen et al (from IDS).

Adler et al discloses the claimed invention as set forth except for actuator is the cooling fluid that is in contact with the rear surface of the diaphragm. Giesen et al discloses the actuator including the cooling fluid that is in contact with the rear surface of the diaphragm (see column 2). It would have been obvious to one of ordinary skill in the art to use cooling fluid instead of spring because the fluid is easier controlling than spring.

Response to Arguments

Art Unit: 2872

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
